Landmarks

If you want to walk to grab a drink or a bite to eat and are looking for the City Dock Downtown look for grain bins and a large apartment building.

If you are looking for "Party Cove", look for a water tower and three cell towers.

Other

If you have guests that are not very "agile", you can request to have your boat launched at the South Shore Access Boat Ramp. The dock here is lower and does not require a large step into the boat. Winds may not allow us to accommodate your request but we will do our best.
